

Supporting Evidence for Governor Elections

As part of the application, prospective Governors are asked to write a short statement as to why they think they would make a good Governor. To help you in the voting process we have typed the statement of each candidate below. Please read them to help you choose who you would like as a parent Governor.

Amber Marshall:

I have two children, and have lived locally for 14 years. My background is working with and advocating on behalf of vulnerable people for charities and the NHS. We feel extremely fortunate that our children have the opportunity to attend such a great school. I am constantly impressed by the commitment and enthusiasm of the staff and I would like to help the school continue to achieve great things for our kids and our community.

Alia Habib:

I am committed to improve and change the school for the betterment and wellbeing of the children. I feel I, as a parent of 3, can understand what other parents feel and need.

Umme Salma Shah:

By having good understanding of the overall vision and direction of the school I can help improve areas needing improvement.
