# Guide to uploading work to Class Dojo

When you log into the app, you should be on the stories page.

This will show you posts for all children that you have added.

You can add more children by clicking on the 'Kids' icon.

In order to upload work or comment, you will need to switch to your child's again.
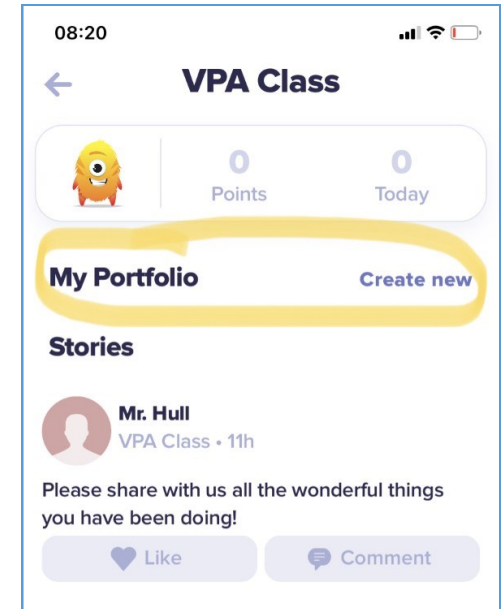

To do this, click the icon shown in the top left corner.

You will then be able to select from any children that you have added.

Once you have selected the child you wish to upload work for, you will then need to select the class.

Next, click 'Create new', next to 'My Portfolio'.

You will then be presented with the above options.

Click photo and take a picture of your work (be sure to allow the app permission to access your camera if it asks).
