

Year 5 Autumn Home Learning Activities

Science

Plant Life Cycles – Draw and label the life cycle of a flowering plant

Maths

Real-Life Fractions – Bake or cook something with your family and show how you used fractions (e.g. cutting a pizza into quarters).

Art

Poster Design – Create a poster about a famous changemaker (e.g. Rosa Parks, Malala Yousafzai, Greta Thunberg).

Geography

Local Environment Survey – Go for a walk and record evidence of pollution, litter, or green spaces. Suggest how your community could be improved.

History

Research Task – Find out about a historical figure who changed society (e.g. Florence Nightingale, Martin Luther King Jr). Present your findings as a fact file.

Changemakers
An activity of your choice linked to the challenge pack.

Computing

Digital Presentation – Create a slideshow about a changemaker or issue important to you.

Music / Drama

Performance – Write and perform a short rap, song, or mini-drama about standing up for something you believe in.

Design & Technology

Invention Challenge – Design a new product that could help people or the planet (e.g. less plastic, saving energy etc. Draw and label your idea.
