

# Year 3 Spring Home Learning Activities

## **Maths**

- Practice measuring objects around your house in cm and mms.
- Practice telling the time on an analogue clock.

Create the ultimate paper aeroplane that will glide over a long distance.

Think about how the design can overcome gravity

## **Reading**

Use a map to locate all of the volcanos around the ring of fire.

**Pompeii was a famous disaster in A.D.79**

**What can you find out about it?  
Can you retell the story in a creative way?**

## Day at the Museum

An activity of your choice linked to the challenge pack.

## **English Writing**

- Create a list of instructions for people to follow and stay safe during an earthquake.

**Collect some different types of stones.**

**What are the similarities and differences between them?**

Retell the story of one of the Greek gods in a creative way.  
You could create a cartoon version or a playscript or maybe something else!

## **Creativity**

Create a model volcano.  
Use cardboard and paper to help make it then ask your teacher how to make it erupt using vinegar!
