

Year 3 Summer Home Learning Activities

Creative

Write a poem about the weather e.g. an acrostic poem.

English

Research all the 3 different types of rocks (metamorphic, sedimentary and igneous). Make a fact file using the information you have found.

Geography

Create a map of the UK showing the main rivers and mountains.

Creative

Create a 3D model using materials you have at home of a volcano.

Catastrophe

An activity of your choice linked to the challenge pack.

Geography

Use a device to find out what the weather is like in different parts of the world.

Maths

Collect some rocks, measure their sizes and put in order from smallest to largest.

Science

Collect 3 different types of rocks and compare the similarities and differences.

Reading

Visit a library to find books about Volcanos and natural disasters.
